First Court House In Utah County; Built In 1866

This is Utah county's first court house, on which construction was started in 1866 and was completed a few years later. This building still stands on First West between First and Second North on the Knight Woolen Mills block.

The court house was the scene of many sensational criminal court trials in the early days. It is claimed that an accused man was hanged in front of this court house back in the '80s.
